

Technical Data Sheet

Product Name:	n-Pentanol		
Synonyms:	pentan-1-ol, 1-Pentanol , n-amyl alcohol		
CAS#:	71-41-0	EC NO.:	200-752-1
Appearance:	colorless liquid	Odor	mild
Hazen (Pt-Co):	30 max.	Purity w%	99 min.
Water content %	0.2 max.	Acidity %	0.02 max.
Packaging:	Packed in iron drum 165kg.Or liquid in bulk		
Storage:	Be care for fireproofing. Please be kept in cool and ventilation place,away from corrosive and oxidation materials.Be care for fireproofing. Preservation periodis 12 months.		
Stability:	Contact with incompatible substances can cause decomposition or other chemical reactions. Stable under normal tempretures and pressures.		
Applications:	Mainly used for synthesizing perfume. It can be used as cosolvent fornitrocellulose lacquer and solvent for other resin when it mixed with other solvent. It can be used as extraction agent for oleoresin, too.		
Contact information:	Supplier: Changde New Materials Technology Co., Ltd. Address: 6th Floor, Sinochem Sihua Building, 279 East Yueyang Avenue, Yueyang Economic and Technological Development Zone, Yueyang City, Hunan, 414000, China Telephone: 86-730-8503612 Zip code: 414000
